

A Reliable Solution to Solve MeridianLink's Integration Challenges

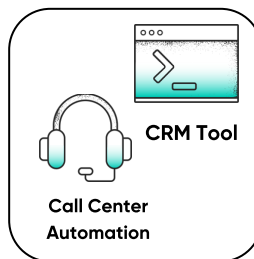

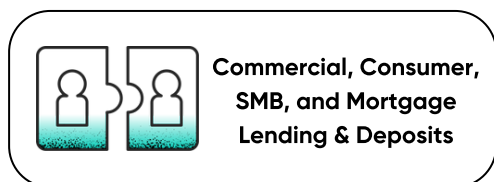

- Sandbox Banking provides MeridianLink a cost effective, fast, solution for any MeridianLink customer to leverage their data in different systems.
- Legacy Core Banking Systems are notoriously difficult to work with, support is minimal for community banks and credit unions.
- Existing integration methods are outdated, expensive to build and maintain, and fragile.
- As the industry undergoes a digital transformation journey, Sandbox Banking is enabling modern software to access core connectivity.

Sandbox Banking leads the Charge in Revolutionizing Consumer, SMB, and Mortgage Lending through Digital Transformation

Sandbox Banking has deep Consumer, SMB, and Mortgage Lending integration experience to enhance Lenders' efficiency or End-Customer NPS

- Core integrations for servicing efficiency
- POS vendor integrations for application acquisition and processing automation
- With MarTech / Call Center as a Service vendors to automate ongoing communication with customers/members
- With Data Analytics vendors to improve targeting

MeridianLink's and Sandbox Banking's Ideal Customer Profile is 100% Aligned

Financial Institutions between 1-20B have high digital transformation needs, are under resourced, and needs projects to come in on time and on budget.

Targeting New Logos and Expanding the Sweet Spot for Sales

Focused sales strategies to strategically grow FI base up and down market
